As a form of artistic expression. the plane constitute the design-based training. but also has the significance of the application. To study the basic design and it constitutes the form of principle. they should learn and master a basic plane design language. The plane constitute the basis for the design training. with emphasis on cultivating the image of the people's thinking ability. function. materials. engineering. technology. cost and other factors is generally not considered in the design process of thinking. but emphasized the high level of abstraction and logical modeling. This training means to break through the traditional way of thinking and performance. Although the basic exercises and application design is different. but a good foundation to master will certainly open up wider ideas for practical design and application. Combined with professional. while to focus purely constitute the basis of training must be the scope of possible applications in the future have a rough idea. so as to constitute the basis of practice of the plane after gradually naturally into the specific design creation depth. rather than a broken and divided. must...
