Lark Crafts. Paperback. Book Condition: New. Paperback. 128 pages. Dimensions: 10.9in. x 8.4in. x 0.4in. Ceramicists searching for new ways to fire their creations now have a wealth of options. Authors James Watkins and Paul Wandless, along with a group of distinguished artisans, demonstrate in detail how to build low-cost, low-tech, yet high-quality kilns. The plans range from an easy, affordable, and versatile Raku Kiln to a unique wood-fueled Downdraft Stovepipe Barrel one. These clever devices make it possible to produce rich surface effects from alternative reduction firing techniques. In addition to showing the basic procedures for using each kiln, easy-to-follow directions for many fast-fire methods unfold in color photographs: You'll see how to achieve terra sigillata surfaces with direct chemical application, and how to do traditional crackle-glaze raku and smoke finishes. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
