MECHANICS OF NON-HOMOGENEOUS AND ANISOTROPIC FOUNDATIONS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Although realistic soil and rock foundations reveal noticeable deviations in their properties from homogeneity and isotropy, the model of the homogeneous isotropic elastic half-space is widely used when studying static and dynamic interactions between a deformable foundation and structures. This is explained by significant mathematical difficulties inherent in problems concerning mechanics of anisotropic and heterogeneous elastic bodies. Solving the basic static and dynamic problems for heterogeneous and anisotropic half-spaces, such as different contact...

Reviews

A really amazing pdf with perfect and lucid reasons. It is really fascinating through reading through time period. Your daily life period is going to be enhance when you complete looking at this ebook.

-- **Prof. Reina Schaefer DDS**

The publication is easy in read through safer to comprehend. It is actually loaded with wisdom and knowledge Its been printed in an extremely simple way and is particularly simply right after i finished reading through this pdf where actually modified me, affect the way i believe.
