The great Municipal Library of Limoges, so replete with ancient manuscripts, whose treasures have never yet been brought out by the printing press to meet the public eye, the rare old volumes that have been lost sight of in the progress of the centuries, offered too great a temptation to a naturally inquisitive mind to be neglected, especially when his honor the Mayor of Limoges placed these literary relics at the disposition of the writer. The strange and curious tales that arc herein related arc all founded on what has been read and gleaned from these writings. The Monastery of Grandmont was chosen because for five centuries it was the most influential agency of both Church and State in this part of France and Europe, and here princes and lords from England, Germany, Italy, and France came to arbitrate their cause and enjoy the privilege of sanctuary. The foundation and rise of such an institution, together with the incidents of life and manners of those distant times, it was hoped would be a subject of interest to the readers of to-day who are fond of looking backward through the mazes already passed in the triumphal march of civilization. Every character in this book has really existed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of...
