Taylor & Francis Inc. Paperback. Book Condition: new. BRAND NEW, New International Directions in HIV Prevention for Gay and Bisexual Men, Michael T. Wright, B. R. Simon Rosser, It is widely recognized that current HIV intervention models are falling short of their goals. What are the alternatives? To answer this question, New International Directions in HIV Prevention for Gay and Bisexual Men presents a collection of articles from European and American authors that rival dominant paradigms of HIV prevention. Researchers, practitioners, and community organizations will be challenged to examine current assumptions and to consider neglected aspects of risk behavior such as love, trust, and the dynamics of sexual intimacy. New International Directions in HIV Prevention for Gay and Bisexual Men explores models and theories that will help you develop more effective HIV prevention programs to better serve patients and clients. New International Directions in HIV Prevention for Gay and Bisexual Men offers you fresh perspectives on prevention work by examining risk behaviors in the interactional, communal, and social contexts in which they are practiced. You will receive alternative explanations and reasons for HIV risk that go beyond current approaches and that introduce possibilities for new intervention strategies. Written by experts in the field, the chapters in New International Directions in HIV Prevention for Gay and Bisexual Men will give you insight into new ideas and developments, including: * placing a greater emphasis on improving successful risk management strategies as opposed to quantifying risk factors * examining the meaning and context of sexual acts which occur in casual encounters or steady partnerships and incorporating their relevancy into prevention work * considering the effects that cultural context and socially constructed meanings have on prevention work and incorporating individuals' values and feelings into prevention strategies * focusing on more realistic goals of harm reduction...
